PEARSON BTEC LEVEL 5 HND DIPLOMA IN COMPUTING AND SYSTEMS DEVELOPMENT

U learn, U grow, U succeed.
We are delighted to welcome you to the UK College of Business and Computing (UKCBC).

We offer an inspiring academic journey with internationally recognised qualifications at a great price. Our modern campuses are just a short journey from central London by tube, and are equipped with spacious learning resources with views stretching far across London. You can choose from several academic programmes, delivered by an experienced and qualified team, who take pride in their ability to meet the needs of students.

We would like to assure you that upon arrival you will find our college environment both warm and friendly. Our administration team works closely with all the academic staff to provide excellent support and guidance throughout your time with us. We are well aware of the difficulties students face, and so we put a great deal of care into helping you choose your career.

Our courses are designed with careful consideration of your individual needs. In addition to the core units of the accredited programme you select, we provide one-to-one tutorials as well as English and professional development classes, if required. We hope you are able to find a course that excites your interest, and we look forward to welcoming you to our college.

UKCBC lecturers gave me a wonderful opportunity to open my mind and gain a lot of knowledge through classroom sessions, case studies and practical sessions.

I am delighted to be a student of UKCBC.

Sheila Martin
BTEC HND in Computing & Systems Development
A high proportion of modern workplaces are built around computer networks and a business infrastructure, requiring high levels of technical knowledge.

Entering such a working environment demands expertise in a number of core skills, with the BTEC HND in Computing and Systems Development representing the perfect foundations on which to become a sought-after asset in the IT and computing business sectors.

The array of specialist modules and practical activities mean you will become accustomed to the working practices and learn the key skills necessary to succeed in your future career.

This course is designated by Student Finance England to be delivered at UKCBC, and students applying for this HND Course may be eligible for tuition funding. Call us today and speak with one of our representatives for further details.
Course Entry Requirements

The criteria to join the BTEC HND in Computing and Systems Development has been designed to qualify as many students as possible.

- BTEC Level 3 qualification or 120 UCAS points (or 48 new UCAS points from Sept 2017)
- GCE Advanced Level profile demonstrating strong performance in a relevant subject. This is likely to be supported by GCSE grades at A* to C
- Other related Level 3 qualification
- An Access to Higher Education Certificate
- Related work experience
- Students who are non-native English speakers or who have not studied the final two years of school in English, can demonstrate capability in English at a standard commensurate to: IELTS 5.5, with a minimum of 5.0 being awarded on individual sections for a Level 4 or 5 qualification
STEP 1.
A pre-admission (enquiry) form to be submitted to gain one-to-one information, advice or guidance (IAG) about the course and the college.

STEP 2.
An application form must be submitted with all necessary original documents that meet the course entry requirements.

Documents to Submit:
- Valid ID Proof
- 2 Passport Sized Photographs
- All Educational Documents
- Proof of Work Experience *(for the category of mature learners)*
- Updated CV
- Personal Statement
- Proof of Address
- UK Residency Status

STEP 3.
An assessment interview and test will follow once the application form and necessary documents have been submitted.

STEP 4.
A conditional place will be offered once the assessment outcome is positive and an unconditional place will be offered upon the fulfilment of all conditions as per the initial offer.
Why study the BTEC HND in Computing & Systems Development?

The BTEC HND in Computing and Systems Development is an industry recognised qualification that has the potential to assist students in developing a successful career within one of the most popular industries.

Joining the BTEC HND in Computing and Systems Development course and studying with the UK College of Business and Computing (UKCBC) can help you achieve your career aspirations.

With specialist units tailored to specific disciplines, joining the BTEC Level 5 HND in Computing and Systems Development course is a fantastic way to begin your career.

In order to complete this HND course successfully, it is required that you achieve at least 240 credits over the two-year study period.

Where Next?

Successful completion of this HND Course puts you in the position to further both your career and your academic standing. Many students go on to work within the IT and computing industries directly after course completion, with others choosing to pursue a full degree or professional qualification from such renowned bodies as Cisco, Microsoft, and Oracle.
